老年人一向被认为是最安全的司机群体。他们一般不会对在交通高峰时段上路，发生事故的机率也比年轻司机小很多。可是越来越多的老年司机在英国被撤销驾照了，原因是什么呢？请听 Judith Moritz 的报道。

**Motorists** over 70 are **considered** to be **amongst** the safest on the road. Many avoid **rush-hour** and late-night driving and are said to cause fewer **accident-related injuries** than younger drivers.

But more of them than ever are being stopped from driving for **medical reasons**. In 2011 just over 10,000 over-70s were **banned** because of their **health**. By last year, that **figure** had risen by a third to nearly 13,000 drivers.

The DVLA (Driver and Vehicle Licensing Agency) says it is not **clear** why there has been such a **surge** in the number of older drivers losing their **licence on health grounds**.
