**BBC World Service report**  
Broadcast 26 September 2017

**The story**  
The National Grid says the power generated this summer was the greenest ever.

From mid-June to mid-September, more than half of Britain's energy came from low-carbon sources.

**Vocabulary**

*enjoys*  
experiences something as an advantage

*spells trouble*  
suggests there may be future problems

*bleed*  
take a lot of money from

**Language challenge**

‘Green’ can mean ‘environmentally friendly’. But there is another meaning. If you say someone is ‘green’, what does it mean?

a) They are very experienced  
b) They are not experienced  
c) They are a member of a political party
Answer
  b) They are not experienced
