

Over the oceans

*Over the oceans
And over the seas
Sail north or south
Or go west, or go east
Time and tide travelling
Blown by the breeze...
Over the centuries!*

- 1 Christopher Columbus set off with his crew
Way back in 1492
What a surprise - a New World came in view...
Over the centuries!

Chorus

- 2 Maps, for Magellan, they helped him explore
Sailing-ships voyaging, shore to shore
Circling the world and then sailing some more...
Over the centuries!

Chorus

- 3 England and Scotland and Ireland and Wales
Hundreds of islands with seafaring tales
Travel through history, wind in our sails...
Over the centuries!

Chorus (twice, speeding up)
