Primary History
Worksheet: Evacuation - Part 2

Imagine you are a child living in a small village during the Second World War. Children from a large town 50 miles away have been evacuated to stay with people in your village. It’s a bit of a squeeze in your small school.

Two are staying with your family and you’ve had to give up your own bedroom to share with your sister/brother.

**Write to your friend in a nearby village to tell them all about it.**

**Think about:**
- how do you feel about these children?
- are they very different from you?
- how do you think they are feeling?
- what new things are you able to show them/teach them about?

1. Use writing paper if you’d prefer
2. When you’ve written it, give it to a classmate to read
3. How did it make them feel?

You’ll find clues to help you on the Children of World War 2 website
