

## SCHOOL DAYS - Part 2

to get down to work, to get through, to go on to

### Part 2 conversation:

- CALLUM:** I messed around sometimes, just like most kids. But then I usually **got down to work** in the end!
- VICKI:** Well, yes, if you want to succeed you have to start doing your work sometime!
- CALLUM:** So, I **got down to work** and I'm glad to say I **got through** all my exams.
- VICKI:** Well done you! So in the end, you started working, and even though it was hard, you managed to pass your exams, so then what did you do?
- CALLUM:** Well I **went on** to university.
- VICKI:** So after school, you continued your education at university – just like me.

### Part 2 examples:

1. To get down. If we want to finish painting this wall today, we better get down to work!
2. To get through. After all my worrying, I got through that assessment without too much trouble.
3. To go on to do. Even though he first worked in television, he went on to star in several films.
