*This table is based on monies paid in the financial year 2016/17. For four individuals, the timing of cash payments made in the financial year materially distorts their banding. We have therefore fairly reflected the substance of these payments in the table. In the case of two of these individuals, material payments that took place between the end of the financial year and the date of this report which relate to work done in 2016/17 have been included. In the case of the other two individuals, payments in relation to long-term agreements have been apportioned evenly over the contract term.*
